Everything a growing business needs to answer, sell, book and follow up — working as one.

Wakflow connects your WhatsApp number, your team's shared inbox, your CRM, your AI assistant and the automation that ties them together — so a new enquiry is answered in seconds, saved with its source, and followed up without anyone copying it between apps by hand.

How it works

- 1 A customer gets in touch**
WhatsApp, Instagram DM or comment, website form, chat or email.
- 2 An AI answers first**
24x7, from your own prices and policies, in the customer's language. Hot leads get a call back within a minute.
- 3 The lead is saved**
In your CRM with its source and interest, plus a follow-up task for your team.
- 4 A human takes over**
The full conversation sits in the shared inbox; the right person picks it up and the AI steps aside.
- 5 Follow-ups run by themselves**
Confirmations, payment reminders, offers and feedback requests — no one pressing send.
- 6 You stay in control**
One short morning report from your AI assistant, and nightly backups of everything.

★ Our flagship product

Wakflow Personal AI Assistant

Your own AI employee. Works 24/7 from your phone.

A private AI assistant in the chat app you already use. It knows your business, sends your daily reports on time, researches, drafts and follows up — and asks you before anything risky.

What you get

- ✓ **It works while you sleep.**
Tell it once — “every morning at 8, send me yesterday’s enquiries” — and it happens every day, on time.
- ✓ **It remembers you and your business.**
Your products, prices, people and the way you like things done. It gets better every week.
- ✓ **It does the work**
Searches the web, reads PDFs and sheets, writes documents, builds decks and updates your apps.
- ✓ **It asks before anything risky.**
Checks only look. Anything that changes, sends or spends waits for your one-tap “yes”.

Key features 84 features in total

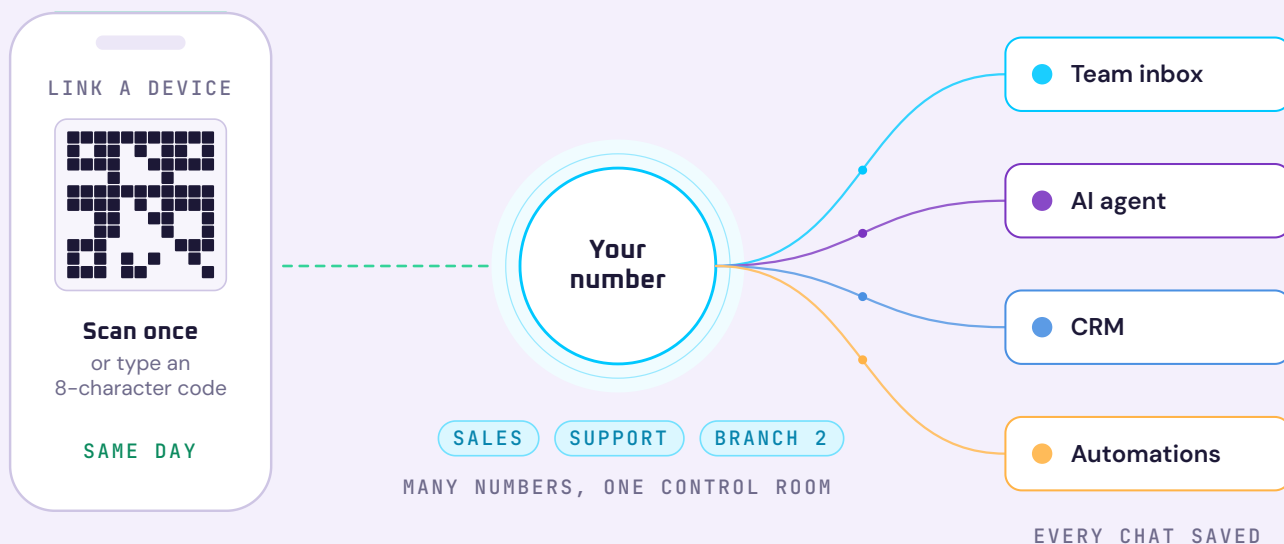

- **Chat on WhatsApp or Telegram**
Message it like a colleague, day or night.
- **Voice notes in, voice replies out**
Speak in Hindi, English or Hinglish.
- **Long-term memory**
Remembers your business, people and preferences.
- **Morning briefing**
Yesterday’s numbers and today’s tasks, in one message.
- **Reads long documents for you**
Tenders, contracts and PDFs — deadlines and risks pulled out.
- **Google Workspace**
Reads and drafts Gmail, Calendar, Sheets and Docs.
- **Asks before risky actions**
One tap on your phone to approve or deny.
- **Set up, hosted and maintained by us**
Updates, new skills and a monthly review.

Wakflow WhatsApp Connect

Your WhatsApp number, connected to everything your business runs.

Links the number your customers already know to AI replies, a shared team inbox, your CRM and your automations — so no enquiry waits, and no conversation lives only on one phone.

What you get

- ✓ **Keep your number. Go live the same day.**
Scan a QR code or type a short pairing code. No new number, no waiting for approval.
- ✓ **Every chat saved, searchable and yours.**
Messages, contacts and receipts stored securely — not only on a phone that can be lost.
- ✓ **Your whole team on one number.**
Several people answer from laptops and mobiles; the customer sees one business.
- ✓ **Many numbers, one control room.**
Sales, support, each branch and each brand get their own number and settings.

Key features 78 features in total

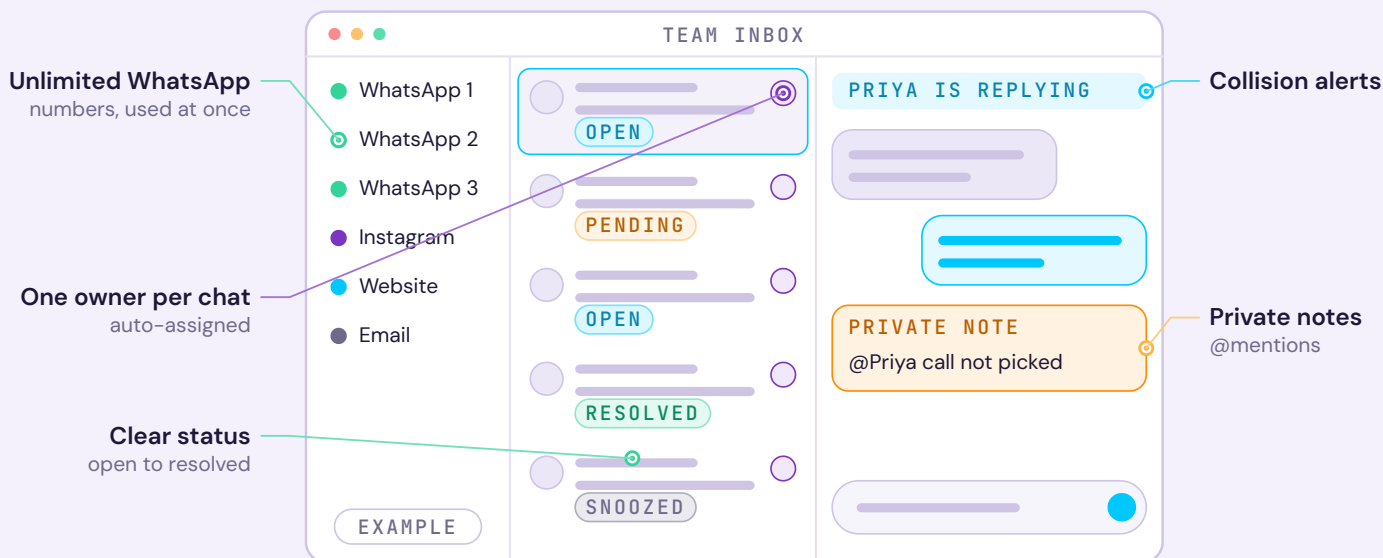

- **Connect with a QR code**
Your existing number, live the same day.
- **Official WhatsApp Business API**
Verified number and approved templates for volume.
- **Many numbers on one account**
A number per branch, team or brand.
- **Full chat history, safely stored**
Survives a lost, broken or replaced phone.
- **Real voice notes**
Genuine WhatsApp voice notes, on Android and iPhone.
- **Swipeable product cards**
A mini catalogue inside the chat.
- **Human takeover**
The bot steps aside when your staff reply.
- **Automatic inbox and two-way sync**
Every chat in your team inbox, replies go from your number.

Wakflow Inbox

One inbox. Every customer chat. Your whole team.

WhatsApp, Instagram, Facebook, website chat and email land on one shared screen. Assign each chat to the right person and reply as a team from your own business number.

What you get

- ✓ **No missed messages.**
Every chat from every channel in one list with a clear status: open, pending, snoozed or resolved.
- ✓ **Clear ownership.**
Each conversation belongs to one person or team, and the manager sees who has not replied.
- ✓ **AI first, people next.**
The AI answers routine questions in seconds; a person takes over with the full history.
- ✓ **Know how your team is doing.**
Live reports on volume, first reply time, resolution time and customer satisfaction.

Key features 96 features in total

- **Unlimited WhatsApp numbers** New
Connect all your WhatsApp numbers in one inbox and use them at the same time.
- **WhatsApp by QR code**
Keep the number your customers already know.
- **Instagram DMs**
Plus Facebook, website chat and email in the same list.
- **Unlimited team members**
Add as many staff as you need.
- **Automatic assignment**
Each chat goes to the right person or team.
- **Private notes and @mentions**
Talk to your team inside the chat — the customer never sees it.
- **Bring your AI agent**
AI answers first; your team takes over with full history.
- **Mobile apps for Android and iPhone**
Reply from anywhere.

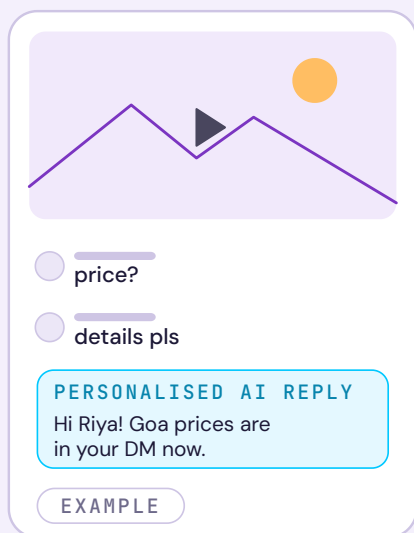

Wakflow Instagram Automation

Turn every Instagram comment into a lead.

Replies to every comment and DM in seconds, in Hinglish or English, walks people through your packages with buttons and carousels, collects their number — and gets an AI voice agent to call them back.

Wakflow AI WhatsApp Agent

Your best salesperson, on WhatsApp, every hour of the day.

Answers every enquiry in seconds from your own price list, stock and policies — in Hinglish, Hindi or English — then qualifies the lead, sends photos and catalogues, and brings in your team the moment a human is needed.

What you get

- ✓ **Replies in seconds, not hours.**
Every message answered immediately — nights, Sundays and festival days included.
- ✓ **Answers from your real data, never from guesswork.**
Looks up your live price list, stock, dates and policies before it says anything.
- ✓ **Sells, not just answers.**
Asks the right question, recommends two or three options and moves every chat to a next step.
- ✓ **Knows when to call a human.**
Big orders, discounts, complaints and ready-to-pay customers are flagged to your team instantly.

Key features 47 features in total

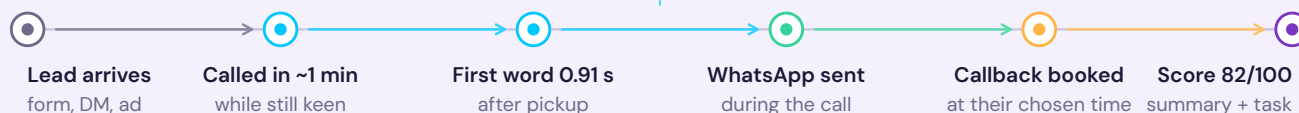

- **Hinglish first, any language next**
Talks the way your customers write.
- **Understands voice notes**
Customers can speak instead of typing.
- **Live price list and catalogue**
Change a price in your sheet — the next reply uses it.
- **Never invents a price**
Answers only from your real data.
- **Product photos on request**
Sends photos and PDF catalogues in the chat.
- **Instant alert to your team**
Big orders and ready-to-pay customers flagged at once.
- **Hot, normal or cold score**
Every lead saved and scored in your CRM.
- **Automatic follow-ups**
Re-engages people who went quiet.

Wakflow AI Voice Calling Agent

An AI caller that sounds human and calls within a minute.

Phones every new enquiry in natural Hinglish, answers from your real prices and policies, sends details on WhatsApp during the call, and hands your team a recording, a summary and a follow-up task.

What you get

- ✓ **Every lead called in about a minute.**
A fresh enquiry is dialled about sixty seconds after it arrives — while they still remember you.
- ✓ **Acts during the call.**
Sends details on WhatsApp, books a callback and flags a hot lead — all while still talking.
- ✓ **Sounds like a person, not a robot.**
First word in under a second. She can be interrupted, and hears tone as well as words.
- ✓ **Every call written down and scored.**
Recording, transcript, AI summary, lead details and a quality score out of 100.

Key features 56 features in total

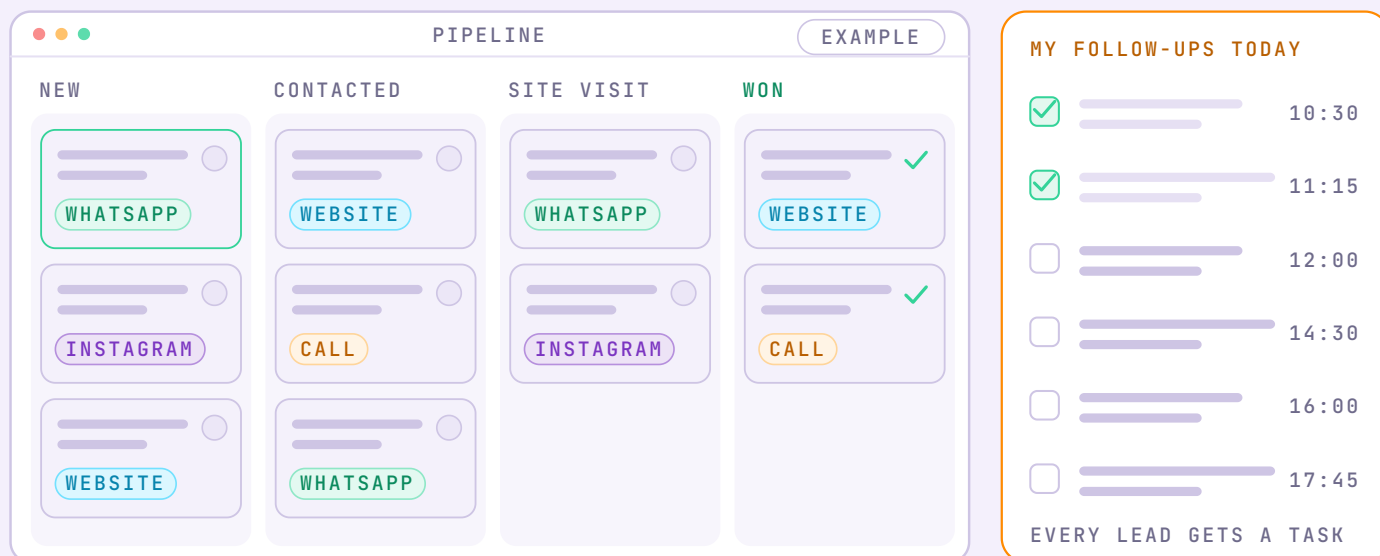

- **Answers in under a second**
No silence when the customer picks up.
- **Instant call on every new lead**
Any form, chat or ad lead can trigger a call.
- **Sends WhatsApp while talking**
Details go out from your number during the call.
- **A quality score on every call**
Recording, transcript, summary and score out of 100.
- **You can interrupt her**
Stops mid-word, like a person.
- **Bulk campaigns from a spreadsheet**
Upload a list; calling hours and retries handled.
- **Flags hot leads without ending the call**
Your senior person is alerted at once.
- **Opt-out that nobody can switch off**
“Don't call me again” is always honoured.

Wakflow CRM

Every lead captured. Every follow-up done.

Collects enquiries from your WhatsApp numbers, Instagram, website and calls, hands each one to a salesperson with a follow-up task, and is shaped around the way your business actually sells.

What you get

- ✓ **Leads enter the CRM by themselves.**
WhatsApp chats, Instagram DMs, website forms and calls become leads, tagged with their source.
- ✓ **Nobody forgets a follow-up.**
Every new lead gets a task with a due date and an owner — "My follow-ups today".
- ✓ **Built around your business, not the other way round.**
Your own record types, fields and stages — Bookings, Site Visits, Students, Patients.
- ✓ **Each salesperson sees their own leads. You see everything.**
Set who can see, edit or delete what — down to single fields and records.

Key features 62 features in total

- **Automatic lead capture from every channel**
WhatsApp, Instagram, website and calls.
- **Your own record types**
Bookings, site visits, students, patients — your words.
- **Full history timeline**
Every call, chat and change on one page.
- **Owner's dashboard**
Leads by source, deals by stage, revenue by person.
- **A follow-up task for every new lead**
Each salesperson sees today's follow-ups.
- **Drag-and-drop pipeline boards**
See every deal by stage.
- **Roles and permissions**
Staff see their leads; you see everything.
- **Excel and CSV import**
Move in from sheets or your old CRM.

Wakflow Lead Capture & CRM Sync

Every enquiry in your CRM. Automatically.

Picks up every enquiry from your WhatsApp numbers, Instagram, website and calls, cleans it, tags where it came from, puts it in your CRM with a follow-up task — and checks every morning that no lead was lost.

What you get

- ✓ **No lead is typed by hand.**
Every message, comment, form or booking appears in your CRM within about a minute.
- ✓ **One customer, one record.**
"+91 98...", "098..." and "98..." are the same person — updated, never duplicated.
- ✓ **You always know where each lead came from.**
Which number, Instagram, website, partner or creator sent them.
- ✓ **Checked every single day.**
A morning audit compares every new lead with your CRM: GREEN, AMBER or RED.

Key features 26 features in total

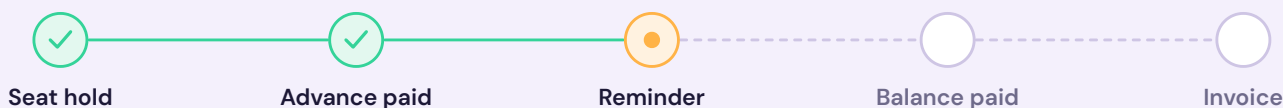

- **Every WhatsApp number**
Plus Instagram, website forms, bookings and AI calls.
- **Update, never duplicate**
A returning customer updates their record.
- **Automatic follow-up task**
Every new lead is handed to your team.
- **Daily lead audit**
Every morning: GREEN, AMBER or RED.
- **Phone numbers cleaned to one format**
"+91 98..." and "098..." become one person.
- **Multi-brand routing**
Each lead goes to the right brand's list.
- **Live Google Sheet register**
A sheet your team already knows.
- **Lost-lead recovery list**
The exact lead to recover if anything slipped.

Wakflow Bookings & Payment Follow-ups

Wakflow WhatsApp Broadcasts

WhatsApp broadcasts that feel personal, not like spam.

Reach your past enquiries and customers with offers, launches and reminders. Every message is written freshly for each person, sent at a human pace, and every reply is answered instantly.

What you get

- ✓ **Every message feels personal.**
Your offer rewritten into many versions in your brand voice — Hinglish, Hindi or English.
- ✓ **Every reply answered in seconds.**
Replies go to your AI WhatsApp Agent or team inbox while interest is still warm.
- ✓ **Sent at a human pace.**
"Typing..." before every message, and natural, random gaps between them.
- ✓ **Replies become leads.**
Every responder saved to your sheet and CRM with the source "Bulk Message".

Key features 26 features in total

- **Send to a simple sheet**
Or to audiences from your CRM and inbox.
- **A fresh message for every person**
Rewritten in your brand voice, never one blast.
- **Every reply gets an instant answer**
By your AI agent or your team inbox.
- **Approved templates**
Official API for large campaigns.
- **Clean numbers before sending**
Only real WhatsApp users are messaged.
- **"Typing..." before every message**
Sent at a human pace with random gaps.
- **Opt-out detection**
"Stop" is confirmed and respected at once.
- **Campaign report**
Who received, replied and became a lead.

Describe who you want — job title, industry, city, how many. No filters to learn.
- ✓ **Work emails found and checked.**
Several sources searched for each person, cleaned and checked before use.
- ✓ **Decision makers, not generic inboxes.**
Founders, directors, HR heads, marketing and operations managers.
- ✓ **Companies that need you right now.**
New job posts in your field and city — and who posted them.

Key features 28 features in total

- **Request leads on Telegram or WhatsApp**
Ask in a plain sentence.
- **Top contacts per company**
The people who actually buy.
- **Several sources, one answer**
Work emails found from several sources.
- **A first message for each lead**

Wakflow Cold Email Engine

Cold email that reaches the inbox, not spam.

We warm up your sending accounts, send a few well-written emails a day at a human pace, follow up in the same thread, and ping you on WhatsApp the moment a prospect replies.

SENDING RAMP

What you get

- ✓ **Lands in the inbox.**
Every account is warmed up for two weeks; daily volume climbs slowly over seven weeks.
- ✓ **It stops itself before damage is done.**
Nightly checks pause an unhealthy account and tell you which one, and why, on WhatsApp.
- ✓ **Your main domain stays safe.**
Separate sending domains and inboxes. Your real business email is never touched.
- ✓ **Every reply caught in minutes.**
Checked every ten minutes. A real reply stops the sequence and alerts you at once.

Key features 48 features in total

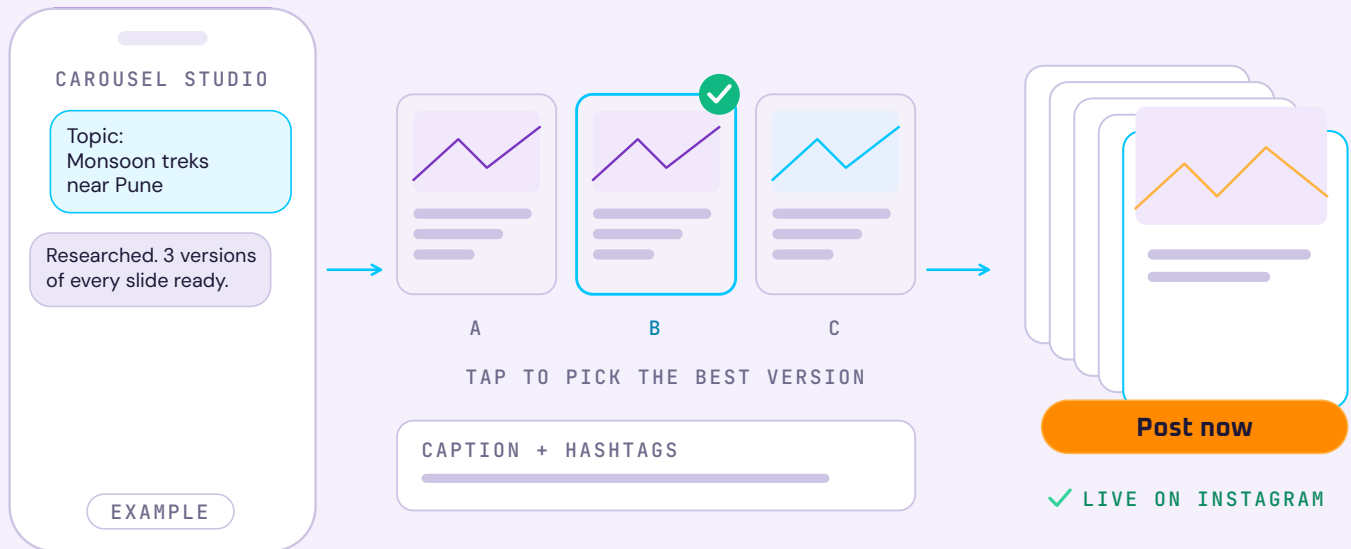

- **Separate sending domains**
Your main business email is never at risk.
- **Automatic warm-up network**
Two weeks of warm-up before any cold email.
- **A seven-week ramp**
Volume climbs slowly and safely.
- **Email verification**
Clean, checked lists only.
- **Three-step sequences**
Follow-ups in the same thread.
- **Personalised to each prospect**
Plain text that reads like a person wrote it.
- **Instant WhatsApp alert for real replies**
Replies checked every ten minutes.
- **Nightly health guard**
An unhealthy inbox pauses itself.

Wakflow AI Carousel Studio

Instagram carousels made, approved and posted from chat.

Send one line — a topic, a city, a product. The studio researches it, writes every slide in your brand voice, designs the images, writes the caption and hashtags, and posts when you say "Post now".

What you get

- ✓ **One message in, a finished carousel out.**
Slides, images, caption and hashtags come back to the same chat, ready to check.
- ✓ **Always on brand.**
Your colours, logo, handle, website and voice on every slide of every post.
- ✓ **Researched, not made up.**
It searches the web for current facts before writing a single slide.
- ✓ **You stay in control.**
Nothing is posted until you approve each slide and the caption.

Key features 24 features in total

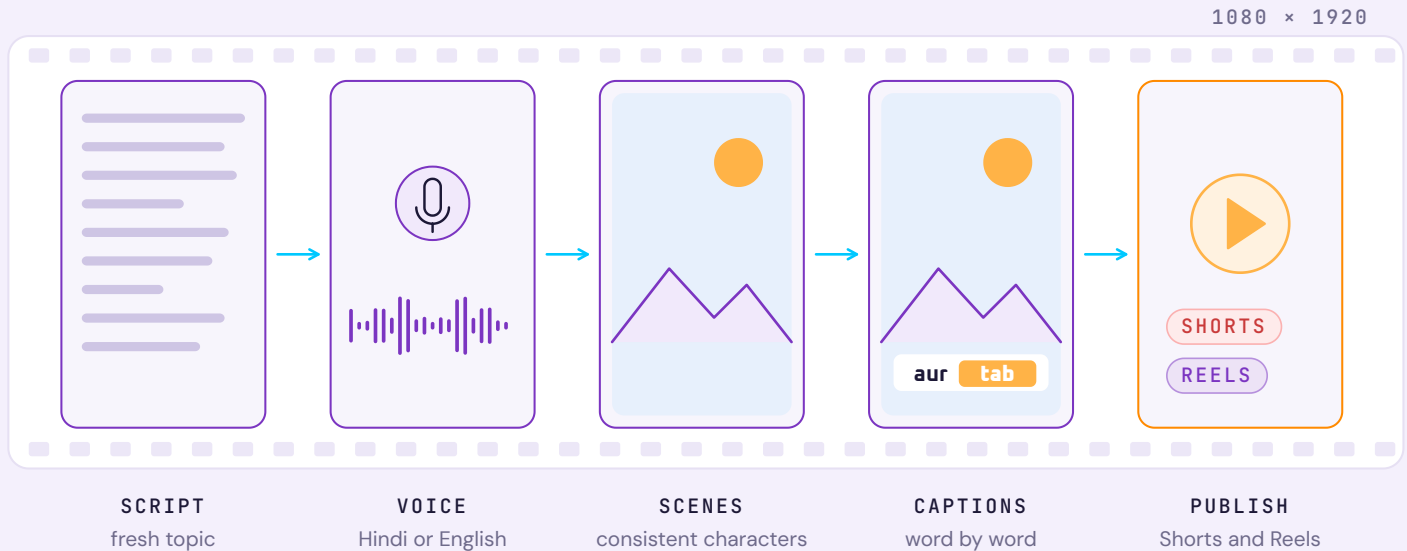

- **Topic from chat**
Send one line from your phone.
- **Three versions of every slide**
Tap to pick the best one.
- **Captions written to be read**
With a hashtag stack in every caption.
- **One-message publishing to Instagram**
Type "Post now" and it is live.
- **Live web research**
Current, true facts on every slide.
- **Your brand kit on every slide**
Colours, logo, handle and voice.
- **Tap to approve each slide**
Nothing posts without your OK.
- **Several brands, one studio**
For owners, teams and agencies.

Wakflow AI Video Factory

A video team that never sleeps, in your pocket.

Turns a topic, a one-line prompt or a reel you like into finished vertical videos — script, Hindi or English voice-over, visuals, motion, captions and music — ready for YouTube Shorts and Instagram Reels.

What you get

- ✓ **Finished videos, not raw clips.**
Script, voice, visuals, motion, captions and music in one vertical 1080×1920 video.
- ✓ **Never repeats a topic.**
It remembers everything it has made and picks a fresh topic every time.
- ✓ **Speaks your audience's language.**
Hindi voice-overs with Hinglish captions, English, or any of 75 languages.
- ✓ **Faceless by design.**
No camera, no studio, no voice recording. Everything is created for you.

Key features 24 features in total

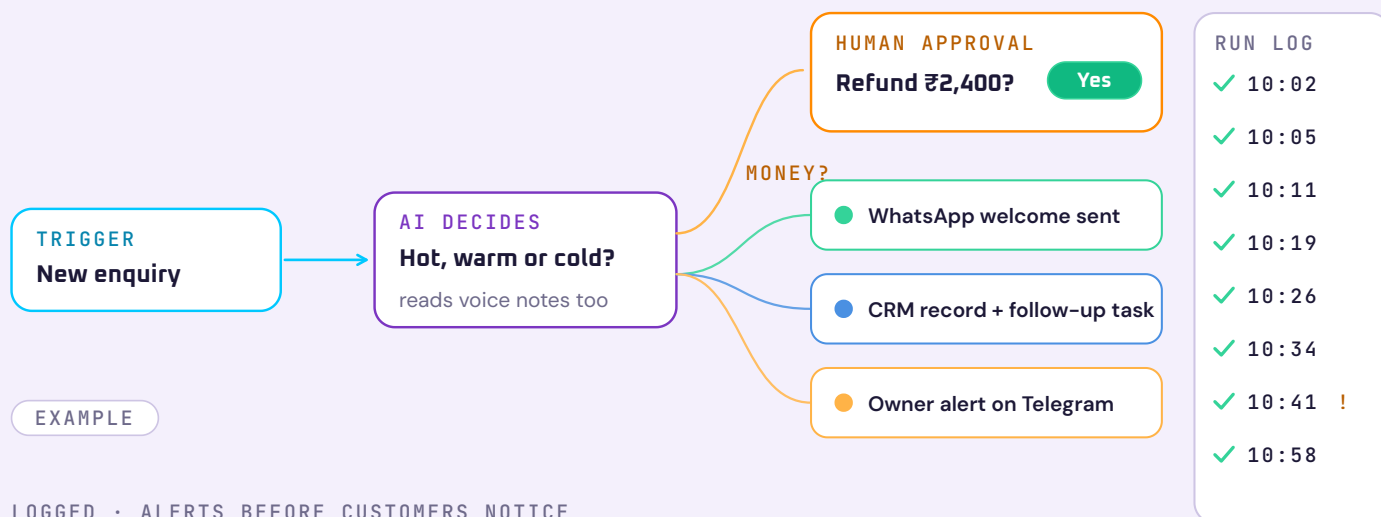

- **Fresh topic every time**
Never repeats a topic.
- **Hindi voice with Hinglish captions**
Or English and many other languages.
- **Consistent characters**
Scene-by-scene visuals that match.
- **Word-by-word captions**
Plus background music and gentle motion.
- **Text to video**
Type a scene, get AI video clips.
- **Send a reel link, get fresh versions**
Remix a reel you like.
- **Upload to YouTube**
And Instagram Reels, with thumbnails.
- **Review from your phone**
Approve before anything goes out.

Wakflow Automate

Stop doing by hand what your software should do for you.

The engine that does your team's repeated jobs — copying a lead into a sheet, sending the same WhatsApp twice, chasing an unpaid invoice — every single time, without anyone learning a new tool.

What you get

- ✓ **One team does the wiring, forever.**
We build it, test it on your real data and keep it running.
You get results, not a login.
- ✓ **A human checks anything that could go wrong.**
Money or real risk pauses for a person to approve before it goes out.
- ✓ **AI does more than move data — it makes small decisions.**
It reads a message, decides if the lead is hot, drafts a reply or flags the tone.
- ✓ **Every automation is logged, so nothing fails silently.**
If a run fails, our team is alerted before your customer notices.

Key features 29 capabilities and ready recipes in total

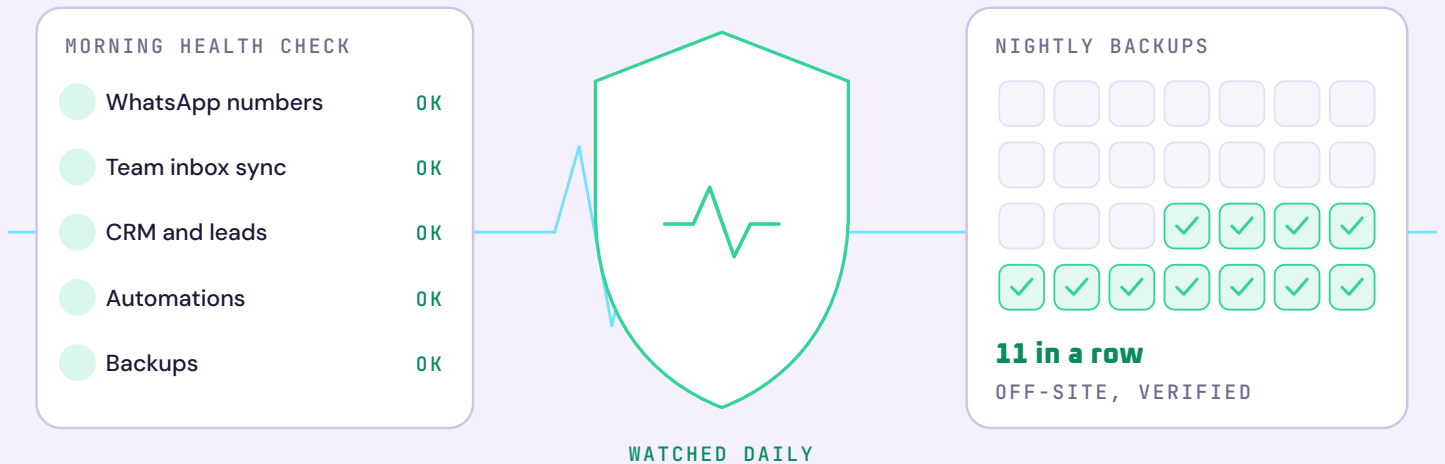

- **A single engine for every tool you run**
CRM, inbox, WhatsApp, sheets, calendars, payments.
- **Money and refunds wait for a human tick**
You approve on WhatsApp or Telegram.
- **Missed-call to WhatsApp**
An unanswered call gets a WhatsApp reply.
- **Owner's daily summary**
New leads, open chats and deals won, every evening.
- **It reads and understands, not just copies**
Sorts leads into hot, warm and cold.
- **Instant lead welcome**
WhatsApp welcome with your brochure in seconds.
- **Payment reminder**
With a payment link; stops once paid.
- **You get a report, not a black box**
How many runs and hours saved.

Wakflow Care

Your automations, watched every day and backed up every night.

Backs up everything off-site every night, checks every system every morning — WhatsApp numbers, inbox, CRM, automations and leads — and alerts our team the moment something breaks.

What you get

- ✓

Every lead accounted for.

Each morning, every WhatsApp and website enquiry is checked against your sheet and CRM.
- ✓

A full health check every morning.

Numbers, inbox, CRM, automations, backups and security — summed up on your phone.
- ✓

Backed up every night, off-site.

Databases, WhatsApp logins, settings and the full system, with 30 days of history.
- ✓

Silent failures caught.

We open real results to find the errors that never show up as red.
